E-MAILING A PICTURE

Note: You can use features such as the digital and optical zooms while recording;

however, you need to set the record sound function off to use the optical zoom.

See the Advanced Manual to learn more about these settings.

Using the OLYMPUS Master software (included), you can share your pictures with others by using the built-in e-mail feature.

After installing OLYMPUS Master, open the program and click " 🗟 Browse Images". From the "Browse" window, select the picture(s) you want to send and click the " E-mail" tool button.

At this time, you can resize your pictures to make them more manageable for email. This helps you stay within the e-mail capacity limitations set by your e-mail provider.

When finished, click the " Launch Mailer" button at the bottom of the window. Your default e-mail program will open, and the selected picture(s) will automatically be attached to a new message.

PRINTING A PICTURE

Using the OLYMPUS Master software (included), you can make prints of your pictures using your own photo printer.

After installing OLYMPUS Master, open the program and click the "Print Images" icon on the main menu. You can create many different types of prints such as an index print, photos, albums, or calendars. Simply select the image(s) and add them to one of the many layouts within OLYMPUS Master. For detailed instructions, please refer to the "Help" menu in the software. You can also order prints online using the "Print Online" feature in OLYMPUS

compatible camera directly to a PictBridge* compatible printer, such as the Olympus P-10 Digital Photo Printer. This permits fast, easy printing without using a computer.

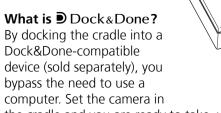

* For detailed instructions on using PictBridge, please refer to your camera's Advanced Manual included in digital format on the CD-ROM.

Alternatively, you can print your pictures by connecting your PictBridge*

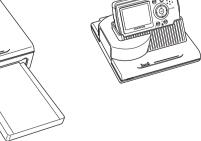

What is Dock&Done? By docking the cradle into a

Dock&Done-compatible

bypass the need to use a

Dock&Done

computer. Set the camera in the cradle and you are ready to take, view, store, browse, share, and enjoy your pictures in the way you would with conventional photographs. Done!

Dock&Done-compatible Storage Unit

Store your valuable pictures using a hard disk or DVD storage unit. You can also view previously stored pictures on the camera monitor.

Dock&Done-compatible Printer

See your pictures on paper. Connect the printer to the storage unit and you are ready to start your own print works at home.
